

REMARKS

Claims 1 to 12 are pending in this application. Of these, claims 1, 10, 11 and 12 are independent. Favorable reconsideration and further examination are respectfully requested.

This supplemental amendment is being filed to change claim 11 so that it covers receiving a signal sequence K(i). The arguments for patentability previously made still apply. Therefore, while claim 11 has changed in scope, Applicants submit that claim 11 is still patentable over the applied art.
